Asst. Engineer 

Asst. Engineer _____

Instructions and Definitions

- Complete all boxes. Use N/A if not applicable.
- This form must be completed and turned in at the end of shift daily.
- Only this form provided by PHL may be used. "Customized" versions are not permitted.
- The Engineer (or Engineer 1) is responsible for maintaining the time and activity recorded throughout the shift. Use 24-hour time format (hh:mm).
- Hours and minutes rested time must be accurately displayed in hours and minutes up to 99 hours and 59 minutes. If rest time exceeds 99 hours and 59 minutes, enter time as 99:59.
- Relieved time boxes are only used if crew encounters Limbo Time. Relieved time is the time crew is relieved by another crew or the train is properly secured.
- Final Release time is when all activity at the behest of the company is complete.
- Total Hours of Service is the time spent actually performing covered service. This must not exceed 12 hours without proper authority.
- Limbo time is the time beyond 12 hours spent awaiting or in deadhead transportation from the relieved point to the point of final release.
- Rested time is the next time that you will be rested in hours and minutes - no rounding. 10 hours + any limbo time (if consecutive starts = 1 thru 5).
- If completing a 6th consecutive start, rest time will be 48 hours from tie-up.
- If consecutive starts are equal to or greater than 6 at either the start of shift or end of shift; or if Total Hours for Calendar Month are equal to or greater than 240, a PHL operations manager must be notified.
- If any mandatory 10-hour rest period was interrupted or a "busted call" occurred prior to this shift, time and duration of the call must be recorded on the activity log.

One form per Request

Refer to the BLET Agreement, July 4, 2013 for details.

B. When an employee is involuntarily bumped, the employee displaced will have 12 hours from their tie-up time if notified while on duty, or 12 hours from the time notification was made if not on duty, to displace on to any job their seniority will allow for which the employee is qualified, including vacant or “no bid” jobs. Employees who fail to exercise a displacement bump will be assigned at the discretion of the Company. Any employee making a displacement bump onto a job requiring to be posted at the next job bulletin cycle and who fails to win a bid, will be required to use a seniority bump or will be assigned at Company’s discretion.

C. Employees placed on positions will be required to report for the new job at the next starting time of the assignment after being notified, provided they are rested. This period may be extended upon request, consistent with the needs of the parties.

D. Employees on vacation are responsible, within four hours of their first tour of duty start time, to verify they have not been displaced. This can be done online or by contacting an on-duty trainmaster.

E. If an employee has failed to bid onto an open bulletined vacancy, after being given advance notice of the abolishment of his/her position, the employee may not subsequently bump onto one of those positions until it has once again been bulletined.

ARTICLE 12

FILLING OF PERMANENT & TEMPORARY VACANCIES

A. Permanent Vacancies. Permanent vacancies shall be defined as any newly established assignment or a vacancy known to be in excess of thirty (30) days.

(1) Permanent vacancies shall be advertised by bulletin for four (4) calendar days on Company bulletin boards, as provided in Article 10 of this Agreement.

(2) When no bids are filed for an Engineer's permanent vacancy, such vacancy shall be filled by forcing the junior qualified engineer working as an assistant engineer.

(3) When no bids are filed for a permanent vacancy of Assistant Engineer, the vacancy shall be filled by force assigning the junior unassigned Assistant Engineer; if none, then the assignment will remain vacant and will be filled by the extra board.

B. Temporary Vacancies. Temporary vacancies are those occurring due to illness, injury, vacation time of any length or other reasons, the term of which is not expected to exceed thirty (30) calendar days or is unknown to the Carrier.

(1) Temporary Engineer vacancies, if they must be filled, shall be filled by a rested Engineer on an extra board established under Article 13. If none, then by the Assistant Engineer on the job, if the employee is a certified engineer. If the Assistant Engineer is not a certified engineer, then the job will be filled by a qualified Engineer working as an Assistant Engineer who will be in a position to provide the least amount of service disruption to the customer. Please refer to Article 8E for applicable penalty claim.

(2) Temporary vacancies of Assistant Engineers, if they must be filled, shall be filled from the extra board. If there is none, they shall be filled by the junior, qualified Employee working another position with the Company under this Agreement.

(3) Additionally, for both Engineer and Assistant Engineer vacancies, known vacancies of five (5) or more days, may first be filled by the senior employee on the extra board making application. If no extra board employee makes application for such vacancy, the position will be filled by the extra board. The "hold down" on the vacancy shall become effective on the first workday of the vacancy and end on the last workday of the vacancy. When vacancies of unknown duration reach the sixth (6th) day, they too may be filled by the senior extra board

ARTICLE 13

EXTRA BOARD

A. The Company may establish, increase, decrease or abolish an extra board for Engineers and an extra board for Assistant Engineers, as it from time to time deems appropriate. If two separate extra boards are maintained, certified Engineers will not be placed on the extra board for Assistant Engineers. Extra board positions will be assigned by job bulletin as defined by Article 10.

B. RCL engineer qualifications will be identified on the extra board.

C. The extra board shall operate on a first-in, first-out basis, except when RCL engineer qualifications are required.

D. Extra board Employees shall be called for service between 2.0 and 2.5 hours before the time required to report for duty.

E. Employees on an extra board will be compensated a minimum pay of 11 times their basic daily rate per 14-day pay period, provided they are available for at least 11 starts within the same pay period. For each call missed or layoff (beyond the number of personal leave days acquired for the calendar year) by an extra board Employee in a pay period, the minimum payment shall be reduced by one-eleventh (1/11). Extra board Employees will be paid the rates shown in Article 4, for the service performed.

F. Extra board Employees will have time off in accordance with federal hours of service requirements.

G. Any employee held in service on the extra board in order to protect an anticipated vacancy while available and rested shall be entitled to a \$100 penalty claim, once per day.
